GRADUATE PROGRAM STUDENT LEARNING OUTCOMES

A student who graduates from the HSC School of Graduate Studies will:

- Demonstrate proficiency in core, discipline-specific principles that serve as the foundation of their graduate education.
- Develop advanced knowledge in a selected area of concentration and apply this knowledge to real-world scenarios.
- Design, conduct, and translate meaningful research and scholarly activity.
- Display competence in communication, pedagogy and technology.
- Analytically interpret and relate current literature to further their understanding of their discipline.
- Apply foundational concepts of responsible conduct of research to their coursework and research.
- Evaluate the impact of their research through the development and utilization of critical thinking and evidence-based practice skills.
